Financial Aid Office

Authorization Form

STUDENT INFORMATION:

Last Name	First Name	Social Security # (Last 4 Digits)	SCC 7 Digit Student ID #

You are registered for one or more courses, which are not eligible for financial aid funding.

### Ineligible courses could be due to one of the following reasons:

1. The course is not required for your declared degree program or catalog year;
2. The course was previously repeated with a passing grade in one of the attempts.

If the course is not required for your degree or is an excessive repeat, you may remain enrolled but you will not be paid financial aid for the course. You can elect to have your financial aid credit balance (refund) pay for the course. This Authorization form MUST be completed in order to disburse financial aid funds to the bookstore or toward courses that are not required by the student's course program.

If you do not submit this authorization you will be required to make separate payment for the course or you will be unenrolled from it.

Course Payment Authorization:

☐ **I Authorize** any remaining federal student financial aid funds I receive in excess of tuition and fees to be used to pay for any courses not required for my educational program and/or that are in excess of 30 developmental course credits.
