SCC STUDENT HELPS ARCHIVE CHEROKEE LANGUAGE DOCUMENTS

SCC student, James Hopkins, helps WCU archive Cherokee language documents

Over the past 15 years, the Cherokee Language Program (CLP) at Western Carolina University has compiled and digitized thousands of Cherokee language documents and media files.

Only problem was that staff members had no way to catalog or search for topics within the database.

“We could type in a keyword and get zero results – or we might get a thousand results and have to sift through each one to find what we’re looking for,” said Sara Snyder, Ph.D., Director of the Cherokee Language Program at WCU. “That could take hours.”

Enter James Hopkins, a student in Southwestern Community College’s Computer Information Systems program. He needed to complete a Work-Based Learning internship before earning his degree, and his coding skills were exactly what WCU’s team needed to categorize the Cherokee Language files.

Hopkins poured hundreds of hours into the project, which will soon make searching for keywords and files thousands of times easier for Dr. Snyder and her colleagues.

“The archive project is vital to WCU’s contributions to Cherokee language revitalization,” Dr. Snyder said. “There are only about 200

first-language speakers of Cherokee remaining, and our final goal is to make all of our materials accessible and searchable remotely via website. We are extremely grateful for all the work James has been doing for us.”

The materials Hopkins worked to archive were collected and created by Dr. Snyder, Raven Smith (CLP Media Coordinator), previous director Hartwell Francis and retired Cherokee Language coordinator Tom Belt in collaboration with community partners of the Eastern Band of Cherokee Indians.

Hopkins worked under the supervision of Dean Russell, SCC’s Work-Based Learning Coordinator. Work-Based Learning is an education-based arrangement that provides practical working and learning experiences for SCC students, giving them roots in the college’s service area of

“We’re extremely proud of the work James has done in WCU’s Cherokee Language Program,” Russell said. “Having the chance to assist WCU’s faculty in preserving these historical documents was a wonderful opportunity. He demonstrated the skills that make him employable after graduation, and he’s a prime example of how our students can benefit the community through Work-Based Learning.”

Ground BREAKING

SCC's Health Sciences Building

SCC holds groundbreaking event for new building

According to research provided by Brian McMahan, Jackson County Commissioners Chairman, only 21 healthcare workers lived in the county at the start of the 20th Century.

What a difference 120 years can make. In June, a popular job-searching website displayed more than 350 results for healthcare job openings within 50 miles of Sylva.

Southwestern Community College is doing all it can to help area residents fill those vacancies. At a spring commencement ceremony in May, more than 150 students graduated from the college's Health Sciences Division. Upon completion of SCC's new Health Sciences Building (2021) and once three new programs come online, the college will be able to accept dozens of additional students every single year.

That potential for historic growth is part of the reason a huge crowd was on hand May 6 for a groundbreaking ceremony for the new building. Southwestern serves Jackson, Macon and Swain Counties. McMahan and SCC President Dr. Don Tomas, along with Terry Bell – then-chair of SCC's Board of Trustees – addressed those in attendance before turning over shovelfuls of dirt.

"This is a significant and long-awaited moment in our college's history, and we are excited to share this kick-off event with everyone in our community who has supported us over the years," Dr. Tomas said. "Once completed, this new

building will have an immediate and lasting impact on our students, the communities we serve and our entire region of Western North Carolina."

Designed by LS3P, the \$20 million building project will be overseen by Michigan-based Christman Company, which has a regional office in Knoxville, Tenn. The building is scheduled to open in 2021.

Funding sources for this project include Jackson County (more than \$13 million), the Connect NC Bond (\$5.4 million) and a grant from the Economic Development Administration (more than \$2 million).

SCC has outgrown its Balsam Center, which was built in 1988 to house four healthcare training programs. The college now has 14 Health Sciences programs, and this building will allow Southwestern to add three more: Surgical Technology, Opticianry and Speech-Language Pathology Assistant.

According to research conducted by William Brothers, SCC's Vice President for Financial and Administrative Services, the new programs being added will yield average salaries (\$49,225) that are 22 percent higher than current median income for the service area (\$40,336).
