

Southwestern  
COMMUNITY COLLEGE  
TUTOR PROGRAM

The Tutor Program at SCC is an academic support system designed to help curriculum students achieve success by providing high quality tutorial assistance to meet their academic needs. Our mission is to encourage and facilitate independent learning and critical thinking skills that can help students be successful in their current educational pursuits, their continuing academic tenure, and their future careers. Highly qualified and trained tutors offer problem-solving strategies and content review. Tutors not only focus on 'what' to learn, but they incorporate strategies on 'how' to learn. Tutors assist students with course content, provide a safe, engaging and motivational environment, and promote student achievement and academic excellence.

SCC Tutors are ready to help!

Applications to request a tutor are available in the **Student Support Services Office (SSS), Oaks Hall, in the Macon LAC or online**. Tutoring assistance is **free** for all curriculum students. SSS students requesting a tutor are allotted a maximum of FIVE tutoring contact hours per week. Students may request tutors for more than one course; however, the total hours per week for each student will not exceed five hours. Interested students should call Laurie Butler, Tutor Program Coordinator (Student Support Services) at 828-339-4231 or 800-447-4091, ext. 4231 or stop by SSS in Oaks Hall.

## SCC's Tutoring Program is CRLA Certified

[CRLA: College Reading and Learning Association]

## SMARTHINKING

SCC offers, free of charge, online tutoring through Smarthinking. Access and use this resource by clicking the "Smarthinking" link in any of your Blackboard courses.

Each student is given 240 minutes per semester for online assistance in any of the following subjects: writing, reading, mathematics, science, business, English as a Second Language, Spanish, and computers and technology.

The Smarthinking's library of resources is available as well and does not use minutes.

For more information, click the Smarthinking link and check it out!
