

[Academic Services](#)

Because students come first at Southwestern, we have a number of resources to assist you when you are away from the classroom. Whether you are a student interested in maximizing your learning experience through an Educational Support Plan created with the Learner Accessibility and Equity Office, looking for ways to move your writing to the next level, seeking tutoring assistance, or simply in need of a conversation with an academic consultant or advisor to move you forward, we always strive to accommodate your academic request.
