## **I. CURRICULUM COURSE PREREQUISITE**

The primary purpose of a prerequisite and/or co-requisite is to enhance student success. While the traditional manner by which students demonstrate their readiness is through the completion of courses, in exceptional cases, students may acquire requisite skill or knowledge through other means. In these cases, a prerequisite or co-requisite may be waived with the appropriate approvals. Only the Dean may waive a course prerequisite or co-requisite. The approval of the waiver and supporting documentation will be scanned and file.
